Pliers Wrench XL pliers and a wrench in a single tool

- for large screw joints also with pressure-sensitive surfaces such as plastic, copper, brass, stainless steel and chrome
- adjustable tightening tool
- replaces diverse expensive, large open-end wrenches up to AF 85 mm or 3 3/8"
- also excellent for gripping, holding, pressing and bending workpieces
- smooth jaws, also for gentle installation of quality union joints made from brass, red brass or stainless steel
- zero backlash jaw pressure prevents damage to edges of sensitive components
- adjustment at the touch of a button directly on the workpiece
- parallel jaws give a more solid grip; the construction gives infinite adjustment of all widths up to the specified maximum size
- optimised adjustment to the workpiece with hand-friendly position of grips
- reliable catching of the hinge bolt: no unintentional shifting
- the action of the jaws allows quick tightening and release of bolted connections using the ratchet principle
- lever transmission greater than 10 : 1 for strong gripping power
- Chrome vanadium electric steel, forged, oil-hardened

Open-end wrenches with fixed opening widths are expensive, especially when used for large union joints. The KNIPEX Pliers Wrench XL , with their adjustable jaw opening up to AF 85 mm / 3 3/8", offer enormous savings potential here.
