Order and clarity

Boxxser

raaco assortment boxes

... order and clarity

raaco's box range is made for people who know the pleasure of systematic organisation and good order.

The practical boxes provide safe and easy storage for all the small items you use every day. Put the desired content in your favourite boxes, and take them with you whenever work calls. That way, you'll always be well prepared for an active working day.

There are three different box series in the range: Assorter, Boxxser and CarryLite. The boxes are available undivided or with removable inserts, fixed compartments or partitions, and come in several sizes.

Each series has its own unique features, which you can read more about in the following pages

Assorter

CarryLite

Boxxser

Boxxser is a complete, integrated box system that meets even the most discerning demands for order, clarity, individuality and efficiency

The Boxxser series consists of six different boxes in two different heights, made of impact-resistant, unbreakable polycarbonate – the strongest plastic material on the market.

The boxes are equipped with practical double walls, which both provide room for securely protected internal hinges and give the boxes a fine appearance. Both versions are equipped with a grid in the bottom which, together with the O-profiles in the lid, restrains the inserts individually, so that it is not necessary to fill the boxes completely. This also ensures that the contents remain in place during transport.

At the front of the box are two permanent compartments for temporary storage of small parts, and the replaceable ID corners in three different colours allow you to label the contents for easy identification. Finally, the Boxxser boxes are equipped with an ergonomic closing and locking mechanism that allows you to close the box with one hand, and ensures that the contents stay in place.

The Boxxser series is designed to meet the needs of professionals working in an industrial environment, who want to be able to store and locate small objects in a systematic and efficient manner.

With a HandyBoxxser you can store four Boxxser boxes in a small space, and still have easy access to the contents. HandyBoxxser also allows you to carry four Boxxser boxes in one hand.

With a Boxxser shelving you can store several Boxxser boxes in a small space.

The lid is made of Polycarbonate (PC), which is an unbreakable and transparent material.

product design award

2012

O-profile ridges in lid: Keeps contents in place during transportation

Lid made of Polycarbonate (PC): Very strong and durable material suitable for use within a variety of conditions

Removable inserts: Individual configuration of the box according to your needs with easy access to contents

2 permanent compartments at the front of the box: For temporary storage of small items

Integrated feet on the bottom: Protects the surface from scratches

Combined close & lock mechanism: Enables one handed operation

Changeable ID-tag: ID-tag in 3 colours for easy identification (colour coding)

Integrated lock & grip: Handle can only be used if box is locked, avoiding accidental spillages

1. Grab the handle.

2. Move it upwards.

3. And the box is securely closed.

Assorter

The Assorter assortment boxes are a series of handy boxes that are easy to take with you anywhere. The boxes' practical partitioning means that the contents can be sorted and stored in a minimum of space.

The Assorter series consists of 12 boxes of various heights, widths and depths. The base is made of robust polypropylene plastic, while the lid is of transparent plastic, allowing the contents to be easily identified.

At the front, the boxes are equipped with a sliding latch that keeps the lid securely closed, while the rear side is equipped with strong external hinges that gives the boxes extra strength.

The boxes come in two variants, with either fixed compartments to cover basic storage needs, or removable inserts that provide great flexibility.

The larger Assorters are equipped with handles which make them easy to transport.

What's more, the Assorters with removable inserts are equipped with U-profiles inside the lid that keep the contents in place during transport.

raaco's HandyBox system was designed to enable Assorters to be transported in a smart way. The system allows you to store up to four Assorters together, in a minimum of space. With the HandyBox, it's an easy matter to transport all four Assorters at once – they can be carried in one hand.

Transportation catch stops the boxes from sliding out of the HandyBox.

The robust sliding lock clicks when the box is properly shut

Several variants with fixed compartments

U-profile ridges in lid keep contents in place during transportation

Clear lid provides an overview

Removable inserts for individual configuration of the box according to your needs with easy access to contents

Strong and ergonomic carrying handle

Integrated feet on the bottom protects the surface from scratches

HandyBox. The "mobile storeroom" that can be picked up and carried.

The sliding locks keep both the lid and the content securely in the right place – also in transit.

The wide range of raaco inserts makes the compartments fully adjustable.

CarryLite

CarryLite is a functional range of lightweight boxes that are easy to handle and transport.

The CarryLite series consists of three sturdy boxes of the same size but in different heights, made of tough, unbreakable high-quality plastic. At the front, the CarryLite is equipped with a sliding latch that keeps the lid securely closed, while the rear side is equipped with strong external hinges that make the boxes extra tough.

The boxes come in two variants, with either partitions or removable inserts that allow you to arrange the compartments as needed.

Moreover, this box version is equipped with U-profiles inside the lid that keeps the contents in place during transport. The transparent lid also makes it easy to identify the contents.

A range of systems is also available to optimise the storage and transportation of the boxes and provide easy access to their contents.

CarryLite shelving

With a CarryLite shelving you can store several CarryLite boxes in a small space, and still have easy access to the contents. The shelving is available with either fixed supports or telescopic rails. Suitable for use in both the van and the workshop.

SafeBox

Metal cabinet for safe storage of CarryLite. SafeBox is equipped with telescopic rails providing easy access to the content of the boxes. The cabinet can be locked.

CarryLite Transporter

Mobile storage unit for CarryLite. Transporter is supplied with a carrying strap and wheels can be mounted. The ergonomic design makes it convenient to carry.

The robust sliding lock clicks when the box is properly shut

Lid made of Polycarbonate (PC), which is a very strong and durable material suitable for use within a variety of conditions

Removable inserts for individual configuration of the box according to your needs with easy access to contents

Integrated feet on the bottom protects the surface from scratches

Strong and ergonomic carrying handle

U-profile ridges in lid keep contents in place during transportation

Made of impact-resistant, unbreakable plastic

CarryLite is available in 3 different heights. Easy to stack. Can be stacked on end, too.

The CarryLite 150 is divided up with partitions.

With ergonomic carrying handle and strong sliding locks that keep both the lid and the content securely in the right place – also in transit.
