

*The KT 70, small and accurate.  
Ideal for MICROMOT drill stands and drill press TBM 220.*

**PROXXON**

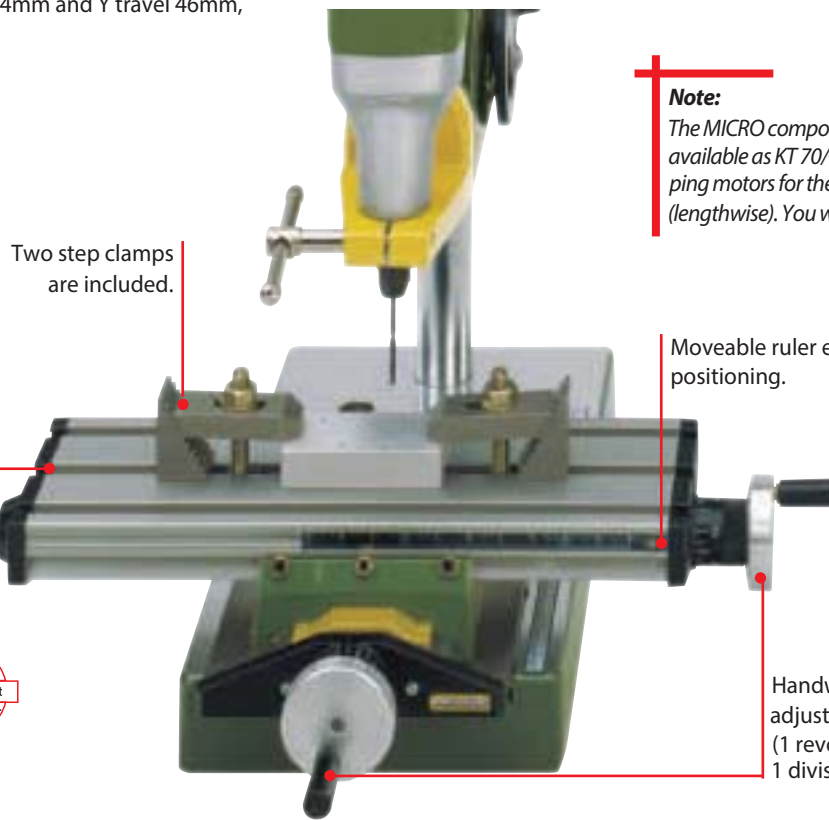

**MICRO compound table KT 70**

Made of solid aluminium with surface treatment and fitted with adjustable dovetail gibs and three T-slots of the MICROMOT standard (12 x 6 x 5mm). Adjustable ruler eases workpiece positioning. Both handwheels have zero-resettable dials with graduations indicating 1 revolution = 1mm and 1 division = 0.05mm. The clamps and securing bolts for the MB 200, MB 140/S and TBM are included.

**Other technical data:**

Table size 200 x 70mm. X travel 134mm and Y travel 46mm, maximum height 43mm.

NO 27 100

Two step clamps are included.

Table of 200 x 70mm with 3 T-slots.

**Note:**

The MICRO compound table KT 70 is now also available as KT 70/CNC-ready (with two stepping motors for the axes X (transverse) and Y (lengthwise)). You will find it on page 50.

Moveable ruler eases workpiece positioning.

Handwheels with adjustable dials (1 revolution = 1mm, 1 division = 0.05mm).
