

# D-Sub Connector Module

## MOD Series

**RoHS  
Compliant**

### Description

D-Subminiature connector modules are used in industrial control as a connecting interface between electronic and conventional components. They serve as the signal conversion from D-Sub to screw connection. The D-Sub connector modules provide user a convenient, quickly installed, and easily replaced input/output platform for all common PLC'S.

The standard modules offer 9, 15, 25, 37 and 50 connections either in male or female connector type to fit different application. Customer specified design will be accepted for particular requirement. The modules can be mounted on standard mounting rails TS15, TS32 and TS35.

### Part Number Table

Description	No of Poles	Dimensions L x W x H (±05 mm)	Part Number
TB, Interface, D-Sub 9P Plug, TB 10P	09	79 x 85.2 x 52	MOD-09-M
TB, Interface, D-Sub 15P Plug, TB 16P	15	79 x 85.2 x 52	MOD-15-M
TB, Interface, D-Sub 25P Plug, TB 26P	25	79 x 85.2 x 52	MOD-25-M
TB, Interface, D-Sub 37P Plug, TB 38P	37	113 x 85.2 x 52	MOD-37-M
TB, Interface, D-Sub 50P Plug, TB 51P	50	147 x 85.2 x 52	MOD-50-M
TB, Interface, D-Sub 9P RECPT, TB 10P	09	79 x 85.2 x 52	MOD-09-F
TB, Interface, D-Sub 15P RECPT, TB 15P	15	79 x 85.2 x 52	MOD-15-F
TB, Interface, D-Sub 25P RECPT, TB 25P	25	79 x 85.2 x 52	MOD-25-F
TB, Interface, D-Sub 37P RECPT, TB 37P	37	113 x 85.2 x 52	MOD-37-F
TB, Interface, D-Sub 50P RECPT, TB 51P	50	147 x 85.2 x 52	MOD-50-F
