

# Dual Function Bench Fan and Solder Smoke Absorber

**DURATOOL**

## Product Overview

- Dual function: It can be used as a bench fan or as a solder smoke absorber.
- The fan is designed to sit on a desktop or can be hung from a support beam.
- 1 carbon fibre filter is included.
- Low noise and long life service fan.

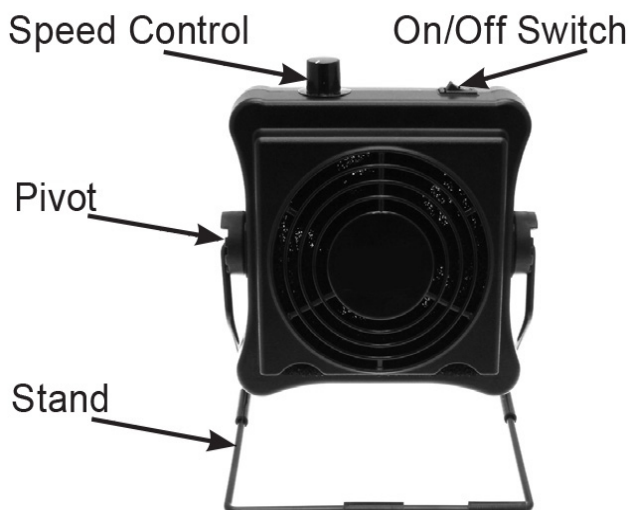

## Specifications

Power : 23W  
Absorption Capacity : 0.2-1M<sup>3</sup>/minute (Max)  
Airflow volume : 0.2-1.2M<sup>3</sup>/minute (Max)

## Operation

- Position the fan as required.
- If using the bench fan function, face the front side towards you.
- If using the smoke absorber function, make sure the carbon filter has been inserted, and face the reverse side towards the solder smoke.
- Plug the fan into a mains power outlet.
- Activate the on/off Switch.
- To change the fan speed from 1 to 10, adjust the speed control
