

This Coax Installation Kit has all the tools needed to prepare and connect compression F-connectors to RG59/RG6/RG6Q cables. The kit includes a Radial Stripper (VDV110-061), Multi-Cable Cutter (63020) and Compression Crimper (VDV212-008). The convenient moulded hip pouch features a flat bottom to stand on its own as a tool caddy, or use the durable metal clip to attach to a belt. Extra loops on the pouch hold additional tools.
