

DURATOOL

Tweezers Soldering Iron , twin-tube heating, direct contact with the components, no impact on the surrounding components , especially suitable for rework on component-densely mounted circuit board , energy-saving, high efficiency, suitable for circuit board components, intensive soldering and desoldering , it can remove flake resistor, condenser and SOP elements , rapid heating up and heat recovery , ceramic heating element

Input voltage: 220V - 240V AC, 50Hz

Heating Power: 48W

TIP Set for ZD-409, contents:

TIP 409-02 (2mm) , TIP 409-03 (3mm) , TIP 409-05 (5mm)

TIP 409-10 (10mm) , TIP 409-15 (15mm)

TIP 409-20 (20mm) , TIP 409-30 (30mm)
