

Mini Vice - 30mm

multicompPRO

**RoHS
Compliant**

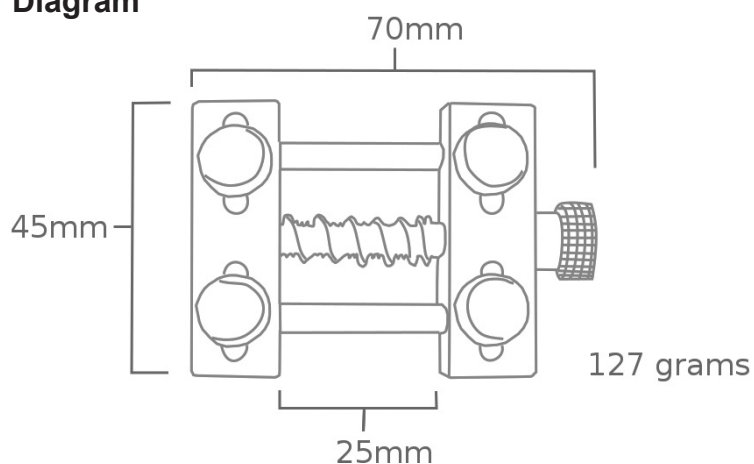

Description

The Non-marking nylon grips can be mounted on the top of the vice jaws in 12 different locations to hold curved, convex or concave objects. Ideal for modelling, repairing, painting or gluing applications. Alternatively, remove pins to use as a smooth jaw vice. This versatile mini vice is perfect for a wide range or precise hobby uses.

Features

- For holding smaller parts in place and working in detail
- Four non-marking nylon grips, easily repositioned to hold various shapes
- The recessed base is designed for use in larger bench vice
- Vice Jaw capacity: 30mm
