

Pi-Box Pro 4

The Pi-Box Pro 4 is a rugged industrial enclosure kit for the Raspberry Pi4. By utilising our HDMI Pi4 extender board we can turn the power and HDMI connectors through 90° so they are on the same plane as the ethernet and USB connectors.

The rear panel is made from 3mm acrylic and allows for communication via bluetooth and Wi-Fi signals from the Pi4.

The standard version allows for access to the SD Card from the assembled enclosure and the -NS version contains the SD Card within the sealed enclosure.

Available in silver or black as standard.

The Pi-Box Pro 4 comes with:

- Extender Board
- Heat Blocks & Pads
- Carrier Plate
- E-Case B Extrusion
- Aluminium End Plate
- Acrylic End Plate (For WiFi & Bluetooth)
- Screws & Fixings
