

Antistatic Waste Bins

multicompPRO

**RoHS
Compliant**

Manufactured from carbon infused polypropylene, the antistatic waste bins can be safely used in a static controlled area.

Instructions

- Placed on an ESD floor or ESD floor mat, these bins will ensure that the ESD path to ground is maintained.
- Use antistatic bin liners with these bins to ensure that no charge is generated

Material	Antistatic Polypropylene (PP)
Capacity	15L, 20L, 35L, 40L, 60L
Volume Resistance	10^4 - 10^9 Ohms
Decay Time	1000V/100V @ less than 1.0s
Tribo-Charging	Less than 100V
Note	Permanent antistatic type
Colour	Black
Printing	Silk-screen printed, yellow permanent ESD logo on the outside

Part Number Table

Description	Part Number	Capacity (Litre)	Additional Notes
Antistatic Waste Bin	MP004362	15	No lid
Antistatic Waste Bin	MP004363	20	With lid
Antistatic Waste Bin	MP004364	35	No lid
Antistatic Waste Bin	MP004365	40	With lid
Antistatic Waste Bin	MP004366	60	With lid
