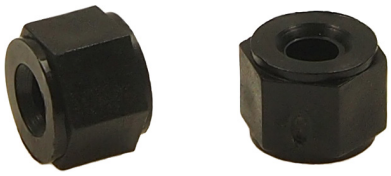
PCB Spacers

multicomp PRO

RoHS Compliant

Description

PCB spacers give a rigid mounting for PCB's or similar assemblies. Fixing is by self-tapping screw, size number 6 or 8, which are simply screwed into each end of the post. The centre flat section can be gripped to prevent rotation while fixing. Pop rivets ⅛"Ø are also suitable for fixing to a metal chassis. Material is Polypropylene (PP).



MP002201 - ¼" (6.35mm)
